### What's The Hype Behind Sizzling Zapper?

I wouldn't say this is their best to offer yet. I will need to improve my taste testing skills and gather more data and possibly make a blog post about ranking their menu. How about 'Top 10 Food To Order In Orange Brutus'?

This is probably one of the best products released by Orange Brutus Cebu. I'm an Orange Brutus Kid as I grew up eating in this fast food chain since my mother introduced me to this place. Ever since then, I've been a loyal customer.

Do you guys know what's best about Orange Brutus? They serve their food freshly cooked. Just like this Sizzling Zapper Fried Chicken that on a sizzling hot plate. It may not be obvious in this picture but in reality it was smoking hot.

The flavor is indeed spicy but not hot. It does not burn your mouth as you get to enjoy the crispy fried chicken indulged in gravy. I'm not an expert in gastronomy but I'm pretty sure the secret spice is in the gravy.

Should I try the Zapper Burger next? They have lots of other great food in their menu.

A very delicious Cebuano meal for a **very affordable price of only Php 165 with drink of your choice** (the one I ordered had Pepsi). You can also order the **meal without drink for a price of only Php 140**. You can have an additional **Go Sizzling Delight for a price of only Php 40** with toppings extras like cheese, egg, garlic & green onions which sadly I didn't opt for. Oh yeah, they also have their **Zapper Burger** which I will have to try later.

The best reason why I always want to dine in at Orange Brutus is they deliver your order to your table. It's because, here in the Philippines, most fast foods don't deliver your order to your table but you have to pick it up at the counter. It's a hassle when you have a lot of food on your pan walking to your table and accidents happen when customers bump into each other and drop their food. Ordering again will waste time.

## **Crispy And Juicy Fried Chicken Swimming In Spicy Gravy**

There are vegetables in the Sizzling Zapper but you tend not register the taste because the spices and the chicken tend to overlap with their flavor.

Wow, just...WOW. If you look closely, you can see it's smoking hot. The presentation alone is so appetizing and sizzling. The tiny flag has always been a cute addition to fast food serving.

The serving size of the Sizzling Zapper is good enough for the average Filipino to fill the stomach but

for a bigger guy like me – I need two servings of Sizzling Zapper!

That 'spicy' flag is kind of misleading. The meal isn't really hot but it's spicy. You don't feel the pungency that much. Maybe it's because I'm already used to eating spicy food.

The secret spice is in the sauce. I can tell even though I'm not a gastronomic expert. The reason why this meal is drenched in gravy because all the spice is in there. Every time I chew, there's just this sensation of heat spreading all around my tongue when the sauce is all over my oral cavity. I might be wrong but maybe next time I'll try eating the crispy fried chicken without the gravy.

## **Orange Brutus Meaty Chicken Is Not All Flour And Batter!**

I cut these two fried chicken fillets in half with my spoon and fork. Removed as much gravy as I can just to show how much of chicken really is in there.

This is clear evidence that the Sizzling Zapper isn't just all flour and batter! It's a delicious fried chicken fillet. When it's your first time getting into **Orange Brutus in Cebu** specially when you're a foreigner, I would recommend you order '**Sizzling Zapper**' as your first rice meal.
